CAROLLO ENGINEERS EXPANDS TO OUR NATION'S CAPITAL

Walnut Creek, California. – Carollo Engineers, the nation's largest water-only engineering consulting firm, is pleased to announce the opening of their newest office serving our nation's capital in the Washington D.C. metro area. Carollo can now be found at 1775 Tysons Blvd in Tysons, Virginia, staffed by Office Manager Jenna Manuszak, as well as Eric Harold, Bill Barrack, Laura Khouvilay, Katie Sager, and Sara Ferrance. The group brings years of successful experience and expertise in the master planning, water resources and infrastructure arena, and will be a great addition to Carollo's nearly 85 years of water engineering history.

"The Mid-Atlantic market aligns well with our brand and operational model," announced Carollo's CEO B. Narayanan. "This move allows us to establish a presence there with individuals who understand local issues, share our core cultural values, and have a strong commitment to client success. Their addition makes us stronger as a company, and we are excited to have them with us."

The opening of this office means that local public agencies and municipalities will have a new partner in their efforts to preserve, restore, and replace the aging infrastructure crisscrossing some of our nation's most venerable cities.

About Carollo Engineers

At Carollo Engineers, water is our focus, our business, and our passion. For more than 80 years, Carollo has provided a full range of innovative planning, design and construction management services to meet the water and wastewater needs of municipalities, public agencies, private

developers, and industrial firms. To learn more about how Carollo is “Working Wonders With Water®” , call (800) 523-5826 or visit www.carollo.com.
